Dear Al:

John mentioned to me that you were responsible for making my veneers and that you went over and above the call of duty to come in on Sunday to ensure I would have them before I left on my trip. I can't tell you how much I appreciate the extra effort you have put into this matter. You did a phenomenal job and the doctor did a great job in applying them. The end result is everything that I had expected.

Thanks again for the extra care you have shown me. I really do appreciate it.

Sincerely,

Greg Provenzano
